

Austin City Water Heater Timer

WH2725AT Pre-Programmed 7-Day Timer

Warm Up to Hassle-Free Energy Savings

The new WH2725AT Pre-Programmed 7-Day Water Heater Timer is the easiest way yet for contractors to ensure Austin-area residents stay code compliant. Simple to install and operate, the timer includes built-in schedules that meet the City of Austin energy requirements for electric water heaters out of the box, as well as a one-hour manual override feature for on-demand water heater control. Contractors need only to input the current time and date, allowing them to complete installation in minutes.

Features and Benefits

- **Approved for use by Austin Energy** – Installs in minutes with pre-programmed schedules that meet City of Austin energy requirements; contractor does not need to manually set schedules
- **Manual Override** – One-hour manual override allows homeowners to control water heater availability
- **Customizable Programming** – Built-in schedules ensure code compliance; homeowners can also customize up to 16 additional ON/OFF events for added energy efficiency and cost savings
- **Program Backup** – Embedded supercapacitor serves as a substitute battery backup, saving schedules and customized programs for a minimum of 100 hours in the event of a power loss

Applications

Use WH2725AT to control electric water heaters in:

- Single-Family Homes
- Multi-Unit Apartment Buildings
- Condominiums
