*When done programming, close door.

Manual Override:

Pressing the door will override the timer setting and will manually turn the switch ON and OFF.

NOTE:

When you initially program the unit it may be necessary to press the manual override key as the unit will not look back to determine if it should be ON. For example if the current time is 2:00PM and you just programmed the unit to turn ON at 1:00PM, you will need to press the manual override key to turn it ON. Thereafter, the unit will resume normal operation (automatic).

Do not use a metallic object to adjust this timer. Always use a non-metallic object such as a wooden pencil.

MEMORY BACK UP:

This timer is equipped with a rechargeable Ni-Mh battery which will protect your programs during power failure for up to 30 days. No need to replace battery.

Note that the screen blanks if the battery is discharged completely.
