

# GARDENA Automatic Irrigation

More Gardena manuals

<http://waterheatertimer.org/How-to-program-Gardena-C1060.html>

A light drizzle in the early morning? A short, refreshing shower late at night? Or do you need your garden to water itself while you are away on holiday? No problem at all! With the GARDENA Water Timers and Computers you decide when and for how long it rains.

From Water Computers connected to the tap for controlling one irrigation line to larger irrigation systems with several irrigation lines, the GARDENA Water Timers and Computers water your garden automatically without you having to lift a finger. It doesn't get any easier than this!

**Water Computer**  
For the tap

**Programming Unit and  
Irrigation Control Systems**  
for larger irrigation systems
