

ECONOSwitch™

Honeywell

RPLS740B / RPLS741B
7-Day / Solar Programmable Timer
for Lights and Motors

7-Day/Solar Programmable Timer

FOR SECURITY, CONVENIENCE AND ENERGY SAVINGS

RPLS740B (white)

RPLS741B (light almond)

KEY FEATURES

- For use with lights and motors up to 1800 W, ¼ HP on 120V
- No minimum wattage required
- Large screen with easy-to-read backlit display
- 7-day programming (up to 7 on and 7 off times per week) and sunrise/sunset activation
- Random mode turns lights on/off at random for added security when away from home
- Automatic Daylight Savings – no need to ever reprogram
- Simple to use – easy 3-button interface for easy operation and programming
- Sleek design mounts flush with wall plate
- Single pole installation (requires neutral wire)
- Manual override enables load to be turned on/off without affecting programming
- Programming protected during power outages
- Can also be used like a conventional on/off switch

* **Does not include wallplate**

Designed in Canada. Made in China.
