

# DIGITAL OUTDOOR LIGHT SENSOR

*Ideal for Security Lighting,  
Holiday Lighting,  
Landscaping and  
Recreational  
Areas.*

## TO OPERATE:

Plug the timer into a 3-conductor outlet.

Using the selector button:

| SELECT   | DESCRIPTION                                  |
|----------|--|
| F        | No Power.                                    |
| O        | For constant power on.                       |
| 1 to 9   | On at dusk. Set off time for 1-9 hours.*     |
| d        | On at dusk, Off at dawn.                     |
| 1. to 9. | On immediately. Set off time for 1-9 hours.* |

\*Cycle repeats every 24 hours.

## AUTOMATIC TIMING

Lights turn on automatically at dusk and off at dawn.

## MANUAL TIMING

Set the timer for lights to turn on and off. For **Security**: while you're away from home. For **Holiday Lighting**: plug your outdoor Christmas lights into your timer.

**CAUTION!** Total cumulative wattage of all lights must not exceed 1000 watts. Use three conductor outlet only. Do not immerse in water.
