NOTE: If the water heater is installed anywhere other than a single-family home dwelling (such as a commercial building or an apartment building or other multi-family dwelling that does not have a separate water heater for each living unit), the Full Warranty will be voided and the Limited Warranty period on the parts and tank both will be reduced to only one (1) year.

OTHER TERMS & CONDITIONS

This Warranty is only valid if the water heater is installed in a single-family home in the U.S.A. Reasonable proof of the date of original purchase of your water heater (such as a copy of your original purchase receipt) may be required to establish its warranty coverage status. The defective water heater to be replaced must be made available in exchange for the replacement. The replacement water heater will be warranted only for the unexpired portion of the original water heater's Limited Warranty period.

You must contact us prior to any repairs being made to the water heater or for any replacement of the water heater. When we determine the required repair or replacement is covered under this Warranty, we will

dispatch a service contractor or authorize a service call. Any request for warranty service must be made promptly to our Warranty Department at telephone number 1-800-431-1549 or in writing to: 2600 Gunter Park Drive East, Montgomery, Alabama 36109. PLEASE NOTE THAT ANY REPLACEMENTS ARE MADE SUBJECT TO VALIDATION BY US OF IN-WARRANTY COVERAGE.

If we determine replacement is required, you will be given the current model of your water heater or a replacement unit with comparable operating features. If government regulations or industry certification or similar standards require the replacement water heater to have features not found in the original water heater, during the initial one (1) year Full Warranty

period, we will provide the necessary repairs to, or replacement of, your water heater at no added cost. After the initial one (1) year Full Warranty period, you will be given the option of: (a) paying the difference in retail price between what you paid for the original unit and a new unit with the government and/or industry mandated features; or (b) receiving a refund for the amount you paid for the original unit. If you opt to pay the retail price difference for a new replacement water heater with the government and/or industry mandated features or to upgrade the size or other features in the replacement water heater, you will receive a completely new Limited Warranty.
