

<http://waterheatertimer.org/Replace-anode-rod.html>

### **Flexible Link Anode Rod:**

Metallic rod installed inside the tank to protect against corrosion. The "R-Tech"™ anode rod is made of magnesium and is designed to offer the longest lasting tank protection.

### **Dip Tube**

Non-metallic. Runs from the cold water inlet to deliver cold water to the bottom of the tank as hot water is drawn out.

**Basic Installation Kit**
