PROGRAMMING & OPERATING YOUR TIME SWITCH MECHANISM

SETTING THE TIME: Hold down the CLOCK key while pressing either DAY, HOUR, or MINUTE keys until proper time is displayed. To clear entire memory, press the  (RESET) Button.

SETTING PROGRAM "ON" and "OFF" TIMES: Press TIMER key once to enter program mode. Display will show "1 ON --". Press DAY key to choose any of the 15 different day combinations available. Once you have selected the desired 7 day program. Press the HOUR key and then the MINUTE key to select the desired ON time. Press TIMER key once to save the first ON time. Now the display will show "1 OFF --". Repeat previous step to program the desired OFF time. This can be repeated for up to 8 different ON/OFF sequences. When programming is completed, press the CLOCK key. Your Time Switch is now programmed.

TO REVIEW PROGRAM: You can review your program settings by pressing the TIMER key to enter the program mode. Continue to press the TIMER button to scroll through each program sequence one at a time. When done, press CLOCK key to return to time of day.

TO CHANGE or DELETE PROGRAM: Press the TIMER key to enter the program mode. Continue pressing the TIMER key until you come to the programmed ON or OFF setting for the WEEKLY PROGRAM you wish to change or delete. Use the HOUR and MINUTE key to change to your new setting desired. If you wish to DELETE a particular ON or OFF setting altogether, set the clock at 0:00. When finished changing or deleting, hit the CLOCK key, to exit the program mode. Press MANUAL button to move INDICATOR BAR to the desired operation mode.

MODES OF OPERATION: (Using MANUAL button located on digital timer)

- Timer/AUTO: Press MANUAL button until INDICATOR BAR is located above AUTO
- MANUAL ON Mode: Used to MANUALLY turn ON the time switch, press MANUAL button until INDICATOR BAR is located above the ON Load Indicator light will go on.
- OFF/Standby Mode: Maintains proper clock time and timer programming during periods of non-use. Press MANUAL button until indicator bar is located above OFF.

NOTE: Timer will not resume automatic (timed) operation until the switch is placed back into AUTO mode.
