59711 - 15 MINUTE SPRING WOUND TIMER / WHITE PLATE

15 Minute Spring Wound Timer / White Plate

Never worry that you left the bathroom exhaust fan on all day again. This in-wall timer has a simple dial mechanism - set the dial to the number of minutes you want the fan to run and that's it! Timer will run up to 15 minutes and turn the fan off, helping to keep moisture levels down in the bathroom. Also ideal for lights, bathroom heat lamps and whole house fans. Installation is easy - just install in place of existing wall switch (standard toggle or decorator wall plate). Large dial is easy to turn. Color: White. Compatible with compact fluorescent bulbs. Ratings: 125V / 60Hz, 20A / 2400W Resistive - 8A / 1000W Tungsten - 5A / 625VA Fluorescent - 15FLA, 90LRA
