From the Manufacturer

Woods 22575 8-Outlet Power strip with 24-Hour Timer This indoor power strip has 8-Outlets, 4 are timer controlled, and 4 are On/Off-switch controlled. You can come home to a lighted house every day of the week. the timer settings repeat daily, so you can have lights and appliances turn on at the same time every day. It has 48 on/off settings for the timer which gives you have half-hour increments. Unlike old fashion timers, this one has pins that cannot be lost. it has a 4 foot 14/3 grounded power cord, and the circuit breaker shuts off power if overloaded. it also has child prevention sliding outlet covers on each outlet.

Product Description

Looking for an easy way to minimize "energy vampires" - those appliances that continue to cost you money when they are idle but still plugged in? Using this power strip with a built-in timer will help control those costs and avoid wasting energy. Four plugged-in appliances can be timed to turn off at set times and the other four outlets are switch-operated. This is a great way to manage computers, gaming consoles, televisions - any device that can be powered off when not in use. Additionally, you can set your lamps to turn on at dusk so you arrive home to a lighted house - great for achieving a lived-in look to deter burglars. And the timer features NEVER-LOSE pins that will stay in place.
