

Thank you for purchasing our Woods Model TIM1200 – Indoor Heavy Duty Appliance Timer.

Before using your timer, please read the following instructions carefully.

FEATURES:

- Easy to install – just plug in
- Never loose pins
- 30 minute interval settings
- Manual override switch – allows you to turn lights ON at any time

To set the timer:

Before starting lift all pins upward into “OFF” position.

1. Set current time by adjusting timer dial until correct time is lined up with the arrow.
2. To set “ON” time, push downward segment pins to corresponding “ON” time. Note that you need to push down ALL the pins in the time period that you want the timer to be in ON position.
3. Ensure manual override switch is in the “AUTO” (Clock Icon) position. (see Fig.1)

Note: You may override operation of the timer by sliding the manual override switch located on top of the timer, to the “ON”(I icon) position. (see Fig.1)

The timer will remain in the ON position until switched back to AUTO, at which time your program will resume.

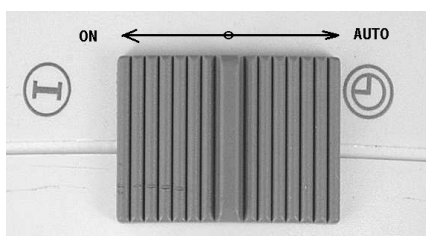

Fig.1

Fig.2

Note: On Fig.2 timer is set as follow: 9:30PM to 1:30AM OFF
1:30AM to 9:30PM ON.

WARNING:

For indoor use only.

Do not exceed the maximum ratings of the timer.

Specification

125V AC/60Hz

15A/1875W Resistive
