Product Description

Installing this easy to use digital in wall timer provides a convenient way to turn exhaust fans, ceiling fans, and lights off after a set period of time. Choose from 2, 4, 8, or 12 hour time periods. Installation is easy, it replaces a standard light switch plate and fits a standard decorator switch plate. The timer provides a simple, yet effective way to leave the bathroom exhaust fan on without having to remember to turn it off later; in addition, using this timer cuts down on wasted energy use since lights and fans can be times to only be on when needed. It is compatible with compact fluorescent bulbs.
