From the Manufacturer

Woods 59383 Heavy Duty Outdoor Timer, Weekly Cycle, 7-Day If you're looking to have more control of units in your yard, this timer is for you. This is a Heavy duty programmable timer with one grounded outlet. It has daily settings but it repeats weekly, so you could have a light turn on at different times on the weekends than they do during the week, or whatever you want. it has a durable protective cover to help last longer, a manual override On/Off Switch for more control, and is ideal for car heating accessories, pool pumps, outdoor lighting and other outdoor appliances. It is Heavy Duty rated at 15 AMP/ and 1HP

Product Description

The Woods 59383 Outdoor 7-Day Mechanical Heavy Duty Timer is a 1 horsepower timer specially designed to handle the power load of pool pumps, car heating accessories, outdoor lighting and other heavy duty outdoor appliances. This timer gives you more control of units in your yard with the daily settings that repeat weekly for great convenience in managing outdoor lights and pool pumps. The Heavy Duty Timer features 6 cycles per day (42 per week) with a weatherproof 8 inch, 14 gauge cord. It has a durable protective cover to help last longer, and a manual override On/Off Switch for more control. It also features never-lose pins in the timer, the pins are secured to prevent from falling out and becoming lost.
