From the Manufacturer

Woods 59403 Heavy Duty Outdoor Digital Timer, Repeats Weekly, 7-Day If you're looking to have more control of units in your yard, this timer is for you. This is a Heavy duty programmable timer with two grounded outlets. It saves up to 7 different programs and repeats weekly. The LCD screen has a back-lit readout that displays current time and function. It provides extra security for your home or office by turning on and off whenever you like. It can also help with energy savings by being programmed to turn lights on only when needed. The battery back-up holds program settings when the power goes out, and the unit has a 24 inch power cord built in.

Product Description

This outdoor digital timer makes managing landscape lights, fountain pumps, animated holiday displays and outdoor appliances a snap! With dual outlets, you can simultaneously turn on and off lights or decorations with one timer. Set up to 6 cycles per day (42 per week). And since your lights or appliances are only set to be 'on' when needed, this unit will help control household electricity costs. The timer also features a digital clock, weatherproof housing, and a 2ft. cord.
