### **Essential Info**

The Woods 59409 Hard Wire Photocell with Wall Plate is ideal for putting floodlights, security lamps and other outdoor lights on an "on at dusk, off at dawn" schedule automatically. The unit fits into any standard outlet box, with a direct wire in. Once installed, this photocell outlet will help contain energy costs since your lights will only remain on when it is dark. Features a weatherproof, metal plate with a neoprene gasket.

This product is also available in a [Hard Wire Photocell without Wall Plate](#).
